

# Golfer's Touring Van

**Assignment:** Our client's two sons travel the country playing golf tournaments, so the assignment was to create a conversion that would accommodate up to six golfers with all their bags and gear. A mobile satellite was also required so that the riders could watch the Golf Channel while on the road.

After delivery, the van's first stop was the National Women's Amateur event in Austin. It was an instant hit drawing the attention of many women who said, "We want a Land Yacht!"

The Golf Channel was a must for this package. Land Yacht uses a mobile satellite antenna and the client's choice of satellite receiver.

Captain's seats recline and legs lift and extend. Time for a nap or just relax.

# Electronics Package

- Satellite TV with DISH receiver
- 42" flat screen LED TV
- 360° video system with recording
- 750W stereo amplifier
- Speaker upgrade

Directional ceiling LED lighting and floor accent LED Lighting

The owner said the Land Yacht rides better and quieter than his Airstream, and it is also able to handle wind gusts better.

Custom cup holders

Attention to detail is a Land Yacht trademark.

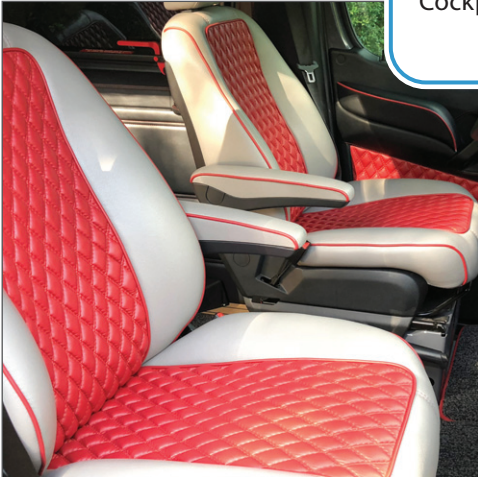

# Other Features

- Ceramic window tint
- Insulation package
- Custom cup holders
- Wool carpeting

Wool carpeting

Cockpit upgrade package is a Land Yacht classic.

Red and white Ultraleather reupholstered seats with added Tempur-pedic foam support make the ride seem more like a Cadillac than a cargo van.
