

# Retiree RV Travel Van

**Assignment:** Convert this Sprinter 144 into a luxury RV travel van. Our client is an empty nester retiree who desired to go and travel the country, including Canada. The last we heard, she and her dog were heading to Washington, D.C. to see the cherry blossoms blooming.

RV travel vans make up approximately one third of Land Yacht's custom builds. The remainder is generally divided between transporters and sports focused conversions.

*Living Space with Bench to Bed and Mini Kitchen*
